EST 1965

“Not only are our neighborhoods being affected, but the state’s economy is being hit hard with individuals scared to show up for work. Our public health is also at risk, with people afraid to seek routine and emergency medical care. School attendance has also significantly dropped, with about 2,500 Framingham Public School students not showing up for school the day after a rumor of ICE presence circulated.”

Liz Sweet – MIRA’s Executive Director
